Original estimate:	Not Specified		
Environment:	<ol style="list-style-type: none">1. Chrome Browser(version:12333)2. MacOS Monterey (version 12.1.1)		

Description

The user is not able to renew the book which he/she has already issued Moreover, after adding more than 2 books in the Issue Book category the application is getting crashed again and again.

****Steps to reproduce****

1. Open the Library Management Software.
2. Navigate to the login page on the top right corner.
3. Enter the valid username(user1) in the username field
4. Enter the valid password(pass1) in the password field
5. Click on the login button.
6. Navigate to the Renew Book button on the top left corner below the profile picture.
7. Enter the serial number of the book issued in the serial number field
8. Click on the Renew Button
9. Observe the Result.
10. Navigate to the Home page on the top right corner
11. Click on the Issue Book page right below the renew Button
12. Enter First Book Serial number in the serial number field.
13. Click on the Issue Book Button.
14. Enter Second Book Serial number in the serial number field.

15. Click on the Issue Book Button.
16. Observe the result

Expected Result: After entering the serial number for the book to renew, the book is renewed successfully. And After entering the serial numbers of more than 2 books to issue, the books are issued successfully.

Actual Result: After entering the serial number for the book to renew, the book is not able to renew. And After entering the serial numbers of more than 2 books to issue, the application is getting crashed again and again.
